

Credit for College

COLLEGE TRACK PROGRAM

“A Distinguished Advantage”

High School Students can attend a local or distance learning college and receive credit toward both high school and college programs

Parkridge will accept your college credits toward meeting part of your high school requirement. Parkridge established a College Track Program in 1999 to allow high school students to enroll in local on site or distance learning college classes and receive both high school credit and college credit at the same time. This program has been enormously successful.

Many of our students graduate from high school with 40 or more college units completed and well on their way to the 60 units needed to earn an Associate of Arts Degree (AA Degree).

This is a cost effective way to complete your educational goals, as students enrolled in community college prior to graduation **do not pay tuition to the college.**

OR

If you dropped out of high school, went to college, some of your college credit may be applied to your High School Diploma.

This opportunity should not to be missed as the savings of both time and money are outstanding.
