

Independent Study

What is Independent Study or Distance Learning?

Independent Study and Distance Learning are methods of delivering education outside the classroom. They bring the instructor, students, and course content together via phone, computers, FAX/modems, and printed materials.

The benefits of distance learning include:

- Convenient, flexible options for fulfilling diploma requirements
- Academically proven curriculum
- Opportunity to attain educational goals in a safe environment
- Opportunities for work experience credit and college credit
- Programs tailored for motivated, committed, goal-oriented learners
- Accessible learning options for students with disabilities
